

Ergonomic design
saves force and
has a lot of grip:

The new
pressure rollers
from Leister

20% more pressure onto the silicone roller
thanks to new design

Civil engineering application:
40 mm and 28 mm roller

Roof application:
40 mm and 28 mm roller

Tarpaulin processing:
40 mm roller

Features

- High quality (ball bearing, silicone roller, wooden handle)
- Durability (silicone roller distance in the test over 65 000 m)
- Improved ergonomics, suitable for both left and right handed operators
- Newly developed bow shape for higher pressure and work without strain
- The optimum roller width for any application (40 and 28 mm)

Order no.:

140.160	pressure roller 40 mm, silicone
140.161	pressure roller 28 mm, silicone

Rolling close to the edge:

Through asymmetrical arrangement of the silicone roller

Natural:

Non-slip, sweat-absorbent wood for better grip

Force saving:

20% more pressure thanks to new design

Ergonomic: For right and left handed operators and 25 % more gripping surface with the same length

Smooth:

Closed precision ball bearings

Unmistakable:

Quality and protected design of the market leader
